

# ROTTERDAM

## **THEME: CROSS CULTURAL DIMENSIONS IN THE CITY 4-10 FEBRUARY 2019**

**University of applied sciences Inholland**

Working at a primary school in Rotterdam means: the whole world in your class, but also: Getting your class ready for the whole world.

One day these pupils may work in the port, in tourism, or in an international company. Like many other big cities, Rotterdam is an 'arrival city'. A city where people arrive from all around the world with different cultural backgrounds, to build a life.

Today, Rotterdam has more than 170 nationalities and is one of the most diverse cities in the world. Discover the different nationalities, different kinds of chapels and religions, the port, the people and most importantly: the youth who is raised and educated in the big city of Rotterdam.

Immerse yourself in this interesting, educational and fun week together with other international students and Dutch students.

**Intercultural program**

---

**In Rotterdam, one of  
the most interesting  
cities in the world**

---

**Get to know different  
kinds of Dutch  
elementary schools**
